HOBBIES

I am an energetic and innovative experienced full-stack software developer living in Addis Abeba, Ethiopia.. I can bring more than three years of experience on building scalable software products. I can collaborate with team members and deliver assigned tasks with the given period of time.

EDUCATION

Bachelor's degree, Computer Software Engineering

Oct 2017 - Jul 2022

Addis Ababa institute Of Technology

EXPERIENCES

Front End Developer

Sep-02-2022 ---

SANTIM PAY(Full - Time)

I am currently working at Santyim Pay financial SC as a front-end developer. I am participating in group projects as well as individual assigned tasks. I am using Flutter for mobile app development and VueJS with Nuxt for website development.

Full - Stack Developer

Aug-01-2022_Sep-01-2022

E - TECH (Internship Trainee)

I had participated as a full-stack developer in projects for the company and I had gained a lot of experiences.

Full - Stack Developer

Jul-04-2021_Sep-10-2021

Ministry of Innovation Technology(Internship)

I have developed a website that allow customers to give comment on the service they get. The comment was specific to individual rooms and departments.

Back - End Developer

Sep-04-2021_Oct-20-2021

Back to school Ethiopia(Freelance)

I participated here as a back-end developer in node. I had achieved great achievement in the group collaboration. I designed database schema, developed rest full api and I used NodeJs for back end and postgresSQL for persistent data store.
